Cashmere jeans: The ultimate comfort

Leave it to Paris Hilton to discover one of the hottest new jeans out there — a cashmere-blended version from James' new premium jeans line. We hear she has a pair in every wash. Why? "These jeans make me look hot!" Paris told our spy. We hear cashmere is literally woven into the denim, resulting in a super-soft and comfortable fit! Compared to the original line, it takes about eight weeks longer to make them. Perfection in the making, or what? Other stylish stars hot on the trend include Lindsay Lohan, Carmen Electra, Rosario Dawson and Alicia Keys.

Mary-Kate Olsen

Mary-Kate's new favorite cover-up

Mary-Kate Olsen, who's known for her boho-hippie look, is loving her latest fashion find — a black JUUL sweater coat that's perfect over baggy jeans or voluminous skirts, à la MK's signature style. We hear she picked hers up directly from the label's designer, Suzanne Juul, whom MK just adores!
